

milling underlay vilmill™

name of article	article description
vilmill™ black 1020	roll width: 1020 mm, roll length: 100 m
vilmill™ black 1250	roll width: 1250 mm, roll length: 100 m
vilmill™ black 1270	roll width: 1270 mm, roll length: 100 m
vilmill™ black 1520	roll width: 1520 mm, roll length: 100 m
vilmill™ black 2050	roll width: 2050 mm, roll length: 100 m
vilmill™ blue 1220	roll width: 1220 mm, roll length: 200 m
vilmill™ blue 1240	roll width: 1240 mm, roll length: 200 m
vilmill™ blue 1520	roll width: 1520 mm, roll length: 100 m
vilmill™ blue 1800	roll width: 1800 mm, roll length: 100 m
vilmill™ blue 2050	roll width: 2050 mm, roll length: 100 m

Characterization:

Vilmill™black possesses a strong coating for a particularly reliable embedding of small parts during the milling process. In some circumstances residues of the coating can stay on the milled edge.

Vilmill™blue has a reduced coating to avoid residues on the milling edge.
